

Science Project Presentation Section Format:

1. Project Title

- Project Title
- Finalist Name (s) (Optional for Local, Regional, and State)
- School(s) (Optional for Local, Regional, and State)
- City, County, State (Optional for Local, Regional, and State)

2. Your research question, background, and Hypothesis

- Background of what is known (from background research)
- Research Question and Purpose
- Hypothesis

3. Methods and procedures for your project

- What did you do? What data did you collect and how did you collect that data?
- Discuss your control group and the variables you tested.
- DO NOT include a list of materials.
- Can include photographs.

4. What were the result(s) of your project?

- Include tables, figures, and graphs which illustrate your data.
- Include relevant analysis of the data.
- Can include photographs.

5. Analyze your results

- What do these results mean? How do your results compare to similar research from background research?
- Discuss possible errors. Were results affected by other events?
- Was the data the same in multiple runs?

6. What conclusions did you reach?

- Do your results support your hypothesis? Explain.
- What application(s) do you see for your work?

7. References

- This section should not exceed one page. Limit your list to the most important references.
- List the references/documentation used which were not of your own creation (i.e., books, journal articles).
